Course Description:

The purpose of this course is to introduce selected topics, issues, problems, and techniques in the area of project management. Project management is implemented in most areas of business today; it is usually an assignment that provides essential exposure to decision-makers within a company. This course examines project management roles and environments, the project life cycle, and various techniques of work planning, control, and evaluation for project success.

Upon completion of the course, the students should be familiar with the tools and processes of project management (the how-to of a project), as well as typical issues and problems encountered during real-world implementation. After course completion the student should be able to address the issues that are important in effectively managing projects.

Course Prerequisite(s):

SIE 305, or consent of instructor

Course Format and Course Communication:

This course is lecture based. This class will use web-based D2L (Desire to Learn) as the only means of distributing class materials including assignments. All Projects and Homework must be uploaded into Dropboxes on or before the due dates. **No late assignments will be accepted.** Your grades for this course will also be available on D2L. You will need a UANet ID to access D2L at the following site: <http://d2l.arizona.edu/>. You are expected to check D2L frequently for class information

To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Threatening Behavior Policy

The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See <http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students>.

Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

Code of Academic Integrity

Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials.
